# 4 Days of Anti-Racist, Anti-Capitalist, Anti-State Action

**CLOSE CAMPSFIELD DETENTION CENTRE!** While the G8 nations meet in Genoa to discuss ways of expanding free trade and profit, thousands of people will be fighting for survival in the country they live in or are forced to leave there just to survive.

Corporations cross borders all the time in search of people to exploit for profit and no one stops them. They call this process Globalisation. On the other hand, the victims of corporate domination are told they cannot cross borders in search of better lives. They are are forced to stay and deal with the social, economic and environmental destruction the companies leave in the wake when they move on to the the next state with even lower wages, weaker environmental protection sweeter tax breaks.

Or they can criminalise themselves, risking injury and death to have a chance at life. Those escaping persecution, murder, torture and exploitation often find their reception - in what they had assumed were civilised "safe" states - can be just as harrowing.

**Campsfield House** (6 miles from Oxford) is the UK's flagship **Immigration Detention Centre**. All of its inmates are escaping from oppressive states (know any other kind?) like Iraq, Turkey and Afghanistan. It was opened in 1993 and is run for profit by the private security firm **Group 4**.

Campsfield operates as a high security prison with visitor searches, restricted visitation rights, a 20ft razor wire-topped fence, extensive use of surveillance cameras etc. Inmates are constantly told that they are not welcome in the UK and that the people do not want them here. **Racism** and **physical abuses** are integral parts of Campsfield's make-up. Many are so worn down they accept voluntary deportation.

The fight against the prison industry and deportations is an important struggle in the fight against capitalism. The G8 are meeting in Genoa between 20-22 July. Ya Basta! will open a "No Borders" camp in Italy to coincide with the meeting. A camp has been opened near the detention centre in solidarity with those in Italy and those locked inside Campsfield. Actions will take place demanding the closure of the centre.
